Number 2

NEW REGISTRATION MARK SET

Dean Fisk Enjoys Tour of Asia and Orient this Summer

Touring China, Japan and Korea proved an invaluable experience for Dean McKee Fisk, Thomas H. Glenn, head of the English department, and Leonard Morris, college student, this summer.

Leaving Santa Ana soon after school was out the party drove to Seattle, sailing for the Orient with the Upton Close Oriental division, conducted by Mr. Close, a famous author. The sea voyage lasted two weeks from Seattle to Yokahama and the 100 students in the party were met by some Japanese students carrying banners and singing national anthems in English. The Americans also sang Japanese songs in Japanese.

During the stay in that country, a group of English speaking Japanese students personally conducted the party.

Mr. Glenn was especially impressed with the progressiveness of Japan and the beautiful natural scenery, mountains, lakes and waterfalls. The local party visited many temples and shrines in the following cities: Yokahama, Tokio, Nikko, Nagoya, Kyoto, Osaka, and Kobe. On a 24 hour trip on an inland sea, the travellers had a very enjoyable time and according to Mr. Glenn, it was the most beautiful body of water he had ever seen. On a visit to Peiping, old imperial city, many historical temples, shrines, etc. were visited.

The second country visited was Korea, where the party was met at Mukden, by Marshall Chang Hseuh Tiang, military dictator of the Province of Manchuria. Being accompanied by soldiers to Hankow on the Yangtze river was another unusual experience.

According to Mr. Fisk, the Chinese people are realizing that a unified government is the first step in raising the standards of the people and economic conditions. The educational system of China has been influenced by America more than any other country in the world. Education is not compulsory but instead, there are two movements going on, one for adult education and the other for mass education. All students entering the university are required to know both Chinese and English, Fisk said.

China is poverty stricken and the average size of a farm is 2 1-2 acres which must support the family. The farm alone usually is insufficient to support the family and outside work is necessary.

The return trip was delayed for a week by a quarantine and the Santa Anans barely reached home in time for school. They reached this city Monday.

Dean Explains Parking

Attention of all students is called to the regulation of the Board of Education which requests students to park autos only on the side of the street bordering the college campus.

Students are earnestly requested to observe this request as the congestion caused by parking on both sides of Ross Street creates a dangerous fire hazard, and the parking on both sides of Walnut Street makes it impossible for residents to park their cars in front of their own homes.—
McKee Fisk, Dean.

Workers Needed On 1930 Algal Staff

Only 15 applications have been handed in to fill the 23 positions which are open to the 1930 Algal staff. The staff is to be chosen soon so that work may begin early this year.

Application blanks may be secured in the Associated student office or from Lavinia Compton, editor, anytime this week or next week. All applications should be in by the end of next week in order to be given due consideration.

Any student who is willing to work is eligible for staff membership experience not being necessary but very helpful. Writing ability is necessary for some of the positions but not for all. Some one who is experienced in the art of taking good snap shots is needed now to take pictures of the early events of the school year. Several positions are open to those who have the time and the energy required to mount pictures.

An art editor is needed in order that plans for the motif of the book may be begun early and carried out well.

Students Wanted In Print Shop Courses

More junior college students can be accommodated in the printing courses and every effort will be made to arrange an hour suitable to the individual program, it was learned from Thomas E. Williams, instructor in printing in the college.

New equipment and space in the print shop has made it possible to accommodate more students. There have been a number of available positions open for apprentices this past summer and all those qualified to accept the positions were employed.

Any student wishing information should see Mr. Williams if desiring to sign up for a course.

Incoming Students Guests of College For Freshman Week

Incoming freshman students in the Santa Ana junior college were guests of the school last week for three days during the official Freshman Week in which addresses of welcome, explanation of courses and matriculation and personal conferences were given to the new students.

Thursday, Friday and Saturday were devoted entirely to the freshmen. The programs started at 9:30 a. m. each day, continuing until late in the afternoon. Lunch was served each noon in the junior college cafeteria, the luncheon on Thursday being served by the Associated Students free to the newcomers.

Highlights of the program on Thursday were the greetings from the faculty and student body officers to the new students, the assembly in college hall with L. L. Beeman, chairman of the Freshman week programs, in charge; welcoming address by President, D. K. Hammond; introduction of the college faculty; introduction of student officers and the Subject A examination given in the afternoon.

On Friday, President Hammond presided at the assembly which was also held in College Hall. Orville Schuchardt and David Hill led the audience in yells to start the program, after which Edward Riniker and Helen Drake, prominent alumni, gave addresses. Robert Brown, local business man, offered several vocal solos and H. O. Russell of the college faculty gave a talk on "The Differences Between College and High School". Arthur Beddoes, new student, gave several musical numbers, followed by an address by E. M. Nealley of the faculty on "College Ethics."

After lunch in the cafeteria, the Thorndike Intelligence test was given to nearly all the freshmen. A. D. Hoenshel was in charge of the quiz which lasted three hours.

Temporary Officers Named For Frosh

Arthur Beddoes was elected president of the freshman class Saturday afternoon at a meeting of that organization. Tommy Clark was made vice-president, Phyllis O'Connor secretary, and Gladys Early, treasurer.

Permanent officers will be elected later. It is customary for the frosh class to name temporary officials to carry on the business of the body until a regular election is held. The permanent officials are not elected until the class members become well enough acquainted to do so.

Buy School Seals

College seals and stickers for automobile windshields are being sold this week to all students by Stewart McPherson, who is also in charge of the student body ticket sale.

The seals are very distinctive this year, having the school seal and the word DONS inside of a red circle. The seals are selling for three for twenty-five cents. With every purchase, stickers put out by Hill and Carden, local clothiers, are also given. This sticker is about eight inches high, representing a football player with the complete football schedule on the reverse side. All students are urged to buy some stickers and advertise the college, especially at the football games.

Art Organization Reorganizes Soon

Members of the Chroma art club will hold their first meeting of the semester in the art studio at 4:45 Friday afternoon, according to an announcement made by Corinne Nelson, president.

All members must have had at least two semesters of art with an A average. High school art courses will fulfill this requirement. Any freshman who has fulfilled these requirements and is interested in the organization is asked to sign his name on the bulletin board in the main hall of the college and is invited to attend the meeting Friday.

Associated Student Tickets Sell Fast

Only 68 per cent of the student body has purchased Associated student tickets, it was learned from Stewart McPherson, helping in the sale of the tickets.

The actual number of tickets sold was 240. The sale will last about 2 weeks but students may purchase them after that also from the treasurer of the student body.

The tickets this year are 50c cheaper than last year, selling for \$8.00. The purchase of a ticket enables the student to attend all athletic games during the school excepting final games or championship playoffs; entrance to all school social functions, including dances, parties, etc.; the right to vote in student body elections; the college paper, the Don, each week and the Algal, school yearbook, at the end of the year. The actual worth of the ticket is much more than the purchase price and the student saves money by holding membership in the school.

Enrollment Exceeds Former Record With 372 Students Today

Enrollment figures in the Santa Ana junior college were broken today for all time with the registration of 372 students, including sophomores and freshmen. Classes started this morning although registration will continue for several weeks, until it is too late to enter classes.

The record enrollment for last year was 678, but this included both semesters. The mark set today only includes three days of registering and the number will be increased quite substantially in the next few days.

The first day of registration, Monday, 164 sophomores signed up for courses, which set another record. The number of upperclassmen has been swelled now to near 200, it was learned at the office.

Large Number Pass Subject "A" Exam

Forty-three students passed the Subject A examination given September 13. It is compulsory for every student entering Santa Ana junior college for the first time to take this examination if he has not taken it before.

The following students passed the exam Thursday:

Marjorie Adams, Billy Barnett, Melvin Beatty, Arthur Beddoes, Margaret Clifton, Esther Cocherham, Nancy Cox, Kenneth Craig, Virginia Fisher, Jack Frost, Dale Fuller, Edwin Hall, Harold Hall, Eunice Hanson, Bruce Narbottle, June Hartshorn, Angeline Haugeas, Mary Hewitt, David Hill, Jack Hyslop, Everett Idlor, Velma Johnson, Joseph Jones, Ben Le Duc, Helen Lee, Louella Newman, Stanley Newton, Kenneth Prince, Eleanor Randall, Charlotte Reid, Herman Reinau, William Reinhardt, Duane Rowland, Elizabeth Straw, Emiline Swales, Mary Tate, Faye Walker, Ruby Wegner, Robert Williams, Rutherford Williams, Don Young.

First Assembly To Be Held Wednesday

Santa Ana junior college students will meet in the auditorium at the first assembly of the school year, Wednesday, at 1 o'clock, Bob Chapman, associated student body president announced last night.

The meeting is primarily a pep assembly and football players will be introduced to the students.

All freshmen must bring their Frosh Bibles to the assembly with them, president Chapman said.

Editorials

A New Year

Today is the beginning of a new year at Santa Ana junior college. The start is just as important in college as it is in the 100-yard dash out on the cinder path—the fellow that makes a poor start will be just a little behind in the race throughout the year and will never quite catch up. To the student who starts to work immediately college work seems easy instead of being a burden.

To enter school activities at the beginning of the semester is also important. Later it will be much more difficult. There are numerous social and service clubs. Coach Bill Cook will welcome any boy who will come out to football practice. Anyone who is interested in any kind of writing may assist in the publication of either the Don or Algor.

Tickets?

Associated student body tickets are still on sale by Bill Jerome, treasurer. Without this ticket a student is not permitted to take part in any college activity, including all sports. It includes purchases of the Don, the Algor, admits the holder to all league games and contests, and to all social affairs by the associated students.

Promissory notes will be accepted and a liberal time allowed in which to pay them. The admission to athletic contests only would amount to approximately twice the cost of the student ticket which may be purchased for only \$8.00.

The Baby Car

If the baby automobile which is to appear soon proves to be practical, it should revolutionize the automotive industry. A new car priced under \$200.00 which will travel fifty miles per hour on a gallon of gasoline, and which will not necessitate pneumatic tires, is something which the public will welcome with open arms and open purses should the invention be as successful as the inventor hopes.

The lowly Ford, commonly associated with college students, will no longer be ashamed of its size or capacity. It will seem a monster in contrast with the new invention. Ambitious freshmen will probably try to run them up and down the campus walks and may even attempt to tour the halls.

It is said that a portable garage will be one of the features of the mail order house automobile, the packing case which it comes in being used for this purpose. Now father won't have to build a dog house. The dog can occupy the garage while the children have the car out nights.

Letters To The Editor

Mr. Rodney Chamberlain:
Editor of the Don.

Permit me through the columns of the Don to thank the various students who have so faithfully and efficiently worked with the faculty committee during the Freshman days and during registration. The success of these days is largeley due to the fine cooperation of these students. I would like to name each one of them but it takes too much space and I might omit some one. However not only myself but the other members of the committee will not forget these students and the very excellent and valuable service rendered.—L. L. Beeman, Chairman.

"Have you ever heard of H. L. Mencken's writings?"

"No, What does he smoke?"

"Well, how'd you boys come out in that game with the Scotch college?"

"We got beat. Their line wouldn't give."

"I think you are foolish to go to a co-educational college."

"Boy, you don't know that school girl affection."

More Musings of Fannie Frosh

Hello, kiddies, here I am once more, just as I warned you!

No circusses for little Fanny; I prefer to watch my fellow students registering. The funniest thing—the air was full of floating pink, blue and green section slips; faculty and students were swarming the halls in a futile effort to get places; sophomores calling from one end of the building to the other, "Hey, fellow, haven't seen you at the beach this summer, where've you been?"

I stood quietly in a corner and watched things happening, until a stern-looking prof ambled up and insisted that I "do it now", so reluctantly, I joined in the swim of class-seekers, and before long emerged triumphant with a plausible looking program. I surely will be able to use most of it, and the rest will just have to be forgotten.

And imagine, I have the most palpitating date for the faculty-student picnic this week! Tall, and blonde, being not to take chances, I merely singled out an eligible, and did my worst. Honestly, he didn't have a chance! The only thing, if the freshmen were only a bit more daring in their dating, we women could retain more feminine modesty and reserve, while as it is

My pet subject, geology, I chose because of the nice sounding name. It seems, it has something to do with dirt and rocks. A sort of "When is a boulder not a boulder?" and the answer, "When it's a fossil." Of course, there is no scientific proof for that.

There is a demand for student debaters. More panic, to be able to argue, and be praised for it. Tradition has it that Santa Ana college is strong in debating, so no doubt all freshmen going out for the favorite indoor activity will find a warm welcome.

Paper being at a premium, this will suffice till next time.
Au revoir!

Exchanges

Students of Sacramento junior college have organized a vigilance court to punish erring frosh. Disobedient frosh are tried and punished for their misdeeds by a severe paddling from the sophs.

Dissolution of the honor system with regard to class discipline during lectures and examinations was announced to the student body of San Mateo junior college in a letter addressed to the executive council and signed by Dean Hopkins and Dr. Elizabeth Balderston, according to the San Mateo, official publication of the college.

Three hundred ninety student body tickets have been sold so far at San Mateo junior college. The goal set by the treasurer is 550.

Glee Club Outlook Declared Bright

Prospects for one of the best quartettes in the history of the junior college women's glee clubs are bright this term, it was announced by Miss Myrtle Martin, head of the music department.

The quartette this year will be chosen from the glee club. Last year this organization contained 36 members. The total this semester is expected to be nearly as large and will have had more experience. Regarding the question of having an opera, Miss Martin declared that a vote would be taken in the glee club to determine what should be done. Last year, "The Fortune Teller" by Victor Herbert was presented.

Anyone desiring to join the glee club should see Miss Martin at once. The class will meet on Tuesdays, from 7 to 9 p. m.

Junior Lions Plan On Dinner Meeting

Junior Lions plan to hold a dinner meeting at Ketter's on the evening of September 24, according to Felix Garnsey, president.

Dr. E. H. Rowland will give the principal address of the evening, speaking on the importance of Junior Lions on the campus.

Prospective members to the organization will be welcomed and made acquainted with the old members.

Bachelors Blow-out At Smiley Home Mon.

Bachelors will hold their first meeting Monday evening at the home of Rod Smiley, 703 W. Washington St.

Ten prospective members have been invited to attend the meeting, which is to be presided over by Chet Page, Grand Exalted Bachelor. The meeting was called primarily to acquaint the prospective members with the organization. An entertainment program is planned and refreshments are to be had.

"Broadway Melody" Here Next Monday

One of the most gorgeous and colorful sets in "The Broadway Melody," Metro-Goldwyn-Mayer's all talking, singing and dancing picture, which will be at the Fox Broadway theatre four days starting Monday, will be seen in technicolor. The sequence incorporates a chorus of more than sixty girls and offers many new novelties in screen entertainment. Practically every dance known to the American stage will be seen in this production. Anita Page, Bessie Love and Charles King head the stellar cast, directed by Harry Beaumont.

SPECIAL PURCHASE

AND SALE OF

SECOND HAND JUNIOR COLLEGE TEXT BOOKS

Latest Revised Editions Bought From Other California Junior Colleges This Summer

SAVE 75C TO \$1.25

Just another chance to be of service to Junior College students—a chance we are always looking for.

We went out among the other Junior Colleges this past summer and gathered up all of the revised editions of authorized Junior College text books that had been in use in those schools, and offer them to Santa Ana students now at savings of 75c to \$1.25 per book.

Every book is in first class condition—some of them have been re-bound—they are the editions you are using right now—the only difference being a slight lack of new appearance. But we thought that many students would appreciate the saving in money and that's why we went to the trouble.

We have all such books that it is possible to buy this year.

There are no more. When our present stock is gone, it cannot be replaced. So, if you want such text books, it would be wise to come in right away. There is a limited number, but we believe enough to go around.

Just to toot our horn a little, this opportunity comes from being on the job, looking for advantages for Santa Ana College students, and this has turned out to be a happy inspiration. It might not have occurred if we had not been in such close touch with the Junior College movement since its inception.

The book business is our business and if experience will produce such little services to our students, we'll feel well paid for the effort.

Come in early and get the books you need—we'll pass the savings in cost on to you!

First Intersectional Football Contest Will Be Played October 5 Against Phoenix University on Home Turf

Grid Tussle Originally Scheduled For Nov. 23, Moved
Up To Early Date Allowing Coach "Bill" Cook
Only Two More Weeks Of Practice

The first intersectional game in Santa Ana junior college football history will be played on the new turf of the local college field here Saturday, October 5, with Phoenix Arizona junior college, two weeks from Saturday following confirmation by local educational executives, Coach "Bill" Cook made this announcement officially today.

The Don athletic department has approved the engagement and Phoenix junior college representatives are equally anxious to match gridiron skill with a Southern California junior college in a home-to-home contest, a 1930 game to be played at the Arizona institution. Final completion of registration for the tussle, the first the Santa Ana college has ever arranged with an out-of-state institution, has added impetus to the Don practice, now in full swing.

As it now stands, the first contest will be definitely held on the local field on October 5, and a return game to be played on the Arizona field in 1930. It was also stated that there was a possible chance that the Dons would play the return game some time in December, after the conference schedule was finished. This would only be made possible if the Dons had a very successful season.

A few new candidates have reported to Coach Cook during the past few days, raising the total to some 40 candidates. Among the new faces are Bob Drysdale, well known slabsman on last year's J. C. baseball team, John Dugdale, heavy fullback, Truscatt "Truck" Lindsey, and "Orv" Schuchardt, well known Santa Ana athlete. "Orv" has never played football before, but he is a natural athlete and has done almost everything but play football so no doubt he will see lots of action.

Coach Cook insists however, that every position is wide open and more players will have to turn out if the Dons will get anywhere in their quest for a championship this season.

Brightening considerably the grid market, was the return of Captain Harold Hylton and Joe Warner, tackle and guard, respectively last Monday. Other newcomers to report

then were Jack Rimel and Carol Ber-tolet. Blanchard Beatty, star of other seasons, also reported in a suit, but only to assist Cook in coaching. Blanchard is coaching the back-field while Cook is giving his attention to the linemen.

Trying out some of the new arrivals, Coach Cook presented the following lineup for the last few days: George Warner and Ed Adams, ends; Herold Hylton, Tim Wallace and Ernest Stump, tackles; Joe Warner and Smith Griswold, at guards; Al Kluthe at center; Melvin Beatty, quarter; Baxter Geeting and Franklin Van Meter, halves; Big "Bill" Crawford at fullback, alternating with John Dugdale.

The signal calling job this year seems to have gone to George Warner at end. George is a very smart football player and knows the game. Although he has had no practical experience in competition, he has had enough experience in football to assure "Bill" Cook that he is capable of taking over the reigns of signal barking. To assist him is "Mel" Beatty, former Santa Ana prep star. Beatty is a veteran at the quarterback position and can use "the old Berry" as well as run, kick and pass. Others who may be called on for the job are Leonard Natland, former Garden Grove star who shows great promise, and Kench Tanaka, former Anaheim star is also ready with a year of J. C. experience behind him.

Girls' Basketball Practice Monday

All girls interested in basketball are urged to report in their suits to Mrs. Foote in the big gym next Monday afternoon at 2:50. The first few minutes will be used for signing up and then the first practice of the season will commence.

Basketball practice will be held this year on Monday, Wednesday, and Friday from 2:50 to 4:30. The season will continue until near the Christmas holidays. The sophomores are expected to turnout with the same strength they had as freshmen last year, and this year's frosh are expected in both unusual quantity and quality. Some lively games may be expected in the tournament with this promising early season outlook.

All girls interested in basketball are again reminded that the spirit of women's athletics in Santa Ana junior college was well stated by Mrs. Foote when she said "All girls out are sure to play on some team."

Next Tuesday, September 24, swimming and tennis candidates are to report for the first meeting of the season. Mrs. Foote will meet all girls who are interested in forming a swimming team and Miss Leck will meet all girls interested in tennis.

The swimmers are to report in suits at 3:30 and practice will continue until 4:30. Miss Leck wishes to meet all tennis and prospective

Dons Will Meet Chaffey Saturday

Introducing the great American sport of football to junior college grid fans, for the 1929 season. Coach "Bill" Cook's Dons will play host to Chaffey junior college on Saturday when the two teams clash in a practice game to be played on the new turf here. The game will start at 2:30 o'clock.

Cook is rushing his charges through new plays every day until

tennis players on the courts with their racquets at the same time that the swimmers meet with Mrs. Foote.
